NOTES:

- The parent group voted to require water bottles or crocks that attach to the cages. If you do not have either of these, your rabbits will not be cooped at the fair. This change is to address all risk-management concerns.
- No rabbits will be checked-in until record sheets (books) have been turned in and rabbit project members and families have signed up for building watch & clean-up during fair week! Come prepared to sign up for these obligations.
- Rabbit project check-out and take down is scheduled for Monday evening of fair. All families are requested to help with this process so the job will be done in an orderly fashion.
